

ISO 9001:2015 Surveillance Audit - 2026

Cascade Precision Components - external surveillance audit report

Registrar: Northwest Quality Registrars Dates: 2026-06-24/25

Scope: Portland, Salem and Eugene plants

Findings:

1. MAJOR (8.5.2 Identification & traceability): two lots in the ERP are in Released status with NO Certificate of Conformance on file (LOT-2026-0117, LOT-2026-0133). Release without CoC breaks the traceability chain for safety-critical parts.
2. MINOR (7.1.5 Measurement resources): one torque wrench past its calibration due date at Salem (since corrected).
3. OFI: NCR cycle time trending upward since April.

Certificate: MAINTAINED, subject to corrective-action closure on finding 1 within 90 days.

All Cascade Precision Components data is fictional and generated for training.
